MACAULEY & SONS, No. 103, Chesnut street, respectfully acquaint their friends and the public, that they continue to manufacture at their extensive establishment, Bush Hill, North Philadelphia, patent floor oil Cloths for rooms, halls, vestibules and steirs, any size without seam—very superior in point of sensoning, durability and richness of colors. They are manufactured on the highly approved plan of "Hare & Sons" of Bristol, England, which gives age to the article, during a stow process in the manufacturing. That all-important requisite cannot be accomplished in small-stablishments; hence the cause of so many abortive attempts to manufacturing flexive oil Cloths in this country.

blishments, hence the cause of sommy about the facture oil Cloth in this country.

The "Philadelphia Patent Floor Oil Cloth Manufactory" is the first, and for many years, the only one of the kind in the U. States. It is now more than 35 years in successful operation, and on a scale calculated to manufacture upwards of 100,000 square yards of oil Cloth per annum. The proprietors can, therefore, warrant their manufacture equal to the imported in every respect, and will be sold at least \$25.30 per cent. lower.

manufacture equal to the imported in every respect, and will be seen at least 25 a 30 per cent, lower.

Oil Cloths for furniture, from 3-4 to 6-4 wide, are also manufactured on Canton Baizes and Muslin, much superior to those made on an open linen fabric, being more pliable and consequently more described.

durable.

Orders from any part of the U. States, South America, or West Orders from any part of the U. States, South America, or West Indies, sent through an Agent, or addressed to the Manufacturers with suitable reference, will be promptly attended to.

Mammoth White Silk Worm Eggs.

THE subscriber offers for sale, at his revidence near the Baptist Seminary, 700,000 Silk Worm Eggs, (of the celebrated kind, Mammoth White), raised by himself, with particular care, this Spring. From exceedingly thrifty worms, it has been proved by the most experienced silk culturists, that this variety of worms produce larger eccoons, and more silk from the number, than any other variety, viz: 192 eccoons of this variety produce one pound chrysalis killed, while the other varieties require from 300 to 350 to the pound. Persons who wish to purchase can be supplied in time to feed from the present crop of morus multicallis, and with proper care and attention can raise two crops of worms this season.

N. B. Those who feel an interest in the Silk cause are invited to view the worms, now in full operation spinning their eccoons.

MEDICAL COLLEGE, IN RICHMOND, VA.

HE next Winter Term of Lectures in the Medical Department of Hampden Sydney College, at Richmond, will commence on MONDAY, Oct. 21st, 1839, and continue until the last of February following. AUGUSTUS L. WARNER, M. D., Professor of

urgery and Surgical Anatomy.

JOHN CULLEN, M. D., Professor of Theory and TH. JOHNSON, M. D., Professor of Anatomy and Tickets only \$20-Halves \$10-Quarters \$5-Eighths

CHAMBERLAYNE, M. D., Professor of Materia Medica and Therapeutics.
R. L. BOHANNAN, M. D., Professor of Obstretics and the Diseases of Women and Children.

SOCIATES MAUPIN, M. D., Professor of Chemistry and Pharmacy.
The College Infirmary, attached to the College Build ing, has been in successful operation for the last eight months, and furnishes constantly a number of interest-ing Medical and Surgical cases—to which the student

access at all hours. The College Infirmary, together with the Alms House Penitentiary and Armory, (which are under the charge of two of the Professors,) will afford the student an op-portunity of witnessing the various diseases incident to Southern climate. The abundance of materials for Anatomical purposes, and the reduced price at which ney are furnished, will enable the student to acquire an intimate knowledge of the Anatomy of the human body,

and the use of Surgical Instruments. During the last Winter Course of Lectures, from the number of Surgical Cases admitted into the Infirmary, the Professor of Surgery was enabled to exhibit before the class, nearly all the important Surgical operations upon the living subject; and from the growing popularity of the infirmary, there is reason to believe that herealter the Surgical Cases in the House, will greatly

Good Board, including fuel, lights, servants' attendance, &c , can be obtained in this city for four dollars er week. We are authorized to state that a full Course of Lec-

ures in this Institution will be received as equivalent o one in the following Medical Schools: University of Pennsylvania; Jefferson Medical College of Philadelphia; Medical College of the State of South Carolina; Transylvania University, Lexington, Ky; University of Ma-

The Professor of Anatomy will open the Dissecting Rooms of the College on the first of October.

Besides enlarging the accommodations very much, in April 30

THE STATE OF SOUTH CAROLINA.—CHARLESTON DISTRICT.—Is CHARCERY.—Lewis Cruger, Administrator of Charles Morray, Complainant, vs. John Ferrie, or his heirs, P. M. Nightingale and William C. Daniel, Defendants.

By this Bill the Complainant seeks payment of a mortgage of a Plantation called Nelville. John Ferrie was seized of the said Flantation, subject to the mortgage, to which the Complainant entitles himself, and subject to the equitable lien, to which the Defendant, P. M. Nightingale, entitles himself, as the personal representative of Nathauled Greene, General in the Armies of the United States, commanding the Southern Division, &c. John Ferrie was in Charleston in the years 1722 and 1733, and subsequently, and is supposed to have been a partner of John Banks, a citizen of Virginia, contractor for the Southern Army. If the heirs or representatives of John Ferrie are within the United States, and will make their claim to the Plantation of Notiville, or to the surplus after payment of the incumbrances that may be set up and established in this suit, they seen come in at any time within two years; and if they are residing beyond the United States. other respects, the former Bath House will be found greatly improved, and furnished with a copious supply of hot and cold Sulphur and Free Stone Water, and a new and elegant edifice, upon the most approved plan, will be ready by the 1st of July, and be equal, it is hoped, to any Bathing Establishment in our Country. Without pretending to vie with the unequalled Warn Spring Bath, the temperature of that celebrated fountain is at the option of the visitors, either in the centre plunging bath, or in the 14 private rooms which surround it— the whole being enclosed within the Octogon Gothic exterior, whose minarets and spires indicate the determination of the company to please the fancy and gratify the

tastes of the invalids, as well as the votaries of pleasure. The extraordinary virtues of the waters, proved in nusecure and may be set up and established in this suit, they say come in at any time within two years; and if they are residing beyond the United States, they may come in and make their claim at any time within four years, after a decree should pass in this cause by pleading, answering or demutring to the Complainant's bill.

A Pail Term, 1893.—By consent of parties Robert Shaw, a Comissioner with the papers of the Court substituted is the solution.

Then will also be a daily line from Fredericksburg. and Charlottesville.

There will also be a daily line from Fredericksburg

o the Springs, and thence tri weekly to Winchester. The Springs will be ready for the reception of comany on the loth of June. On the 4th of July, the Declaration of Ir.-lependence will be read, and at the earest solicitation of the Company, Mr. Jao. S. Pendleton, the distinguished delegate from Rappahannock, has con-II., by 10 sented to deliver an Oration. The Music and the Dance will add to the attractions of the occasion On the first Tuesday in September, the Races take place over the Victoria Course, within half a mile of the

Springs. The terms will be as follows: Board per week \$10; per month \$35; for two months \$65; for the season, end-James in Coarmon and Statistics of the State of Coarmon and Statistics of the State of State

DANIEL WARD. May 24 [5-11]

Shannondale Springs, in Differson county, Va., 5 miles from Charlestown The HIS agreeable and beautiful Watering Place is now prepared to receive Visiters. The Company have recently made various improvements suggested by the experience of their first season. The accommodations of the last year being found insufficient for the number of visiters, extensive additions have been made to the buildings, and the whole establishment otherwise im-proved and embellished. Besides the W rm Baths, which will be much improved, large Floating Baths are being constructed, colculated to furnish the most delightful river bathing both for ladies and gentlemen.

The surpassing beauty of these Springs, situated on a great bend of the majestic Shenandoah River, at the foot of the Blue Ridge Mountain, as well as the long catablished superiority of the waters, need not again be more than adverted to These, together with its great facility of access from Baltimore, Philadelphia, the District, &c., by Railroad and Canal, render it one of the most agreeable, healthful and convenient resorts during the heats of Summer.

Competent Managers, Servants, Music, Pleasure and Fishing Boats, &c , are provided, and the Company as-sure the public that no effort or expense will be spared to render their Establishment equal to any other, either for genteel accommodation, rational amusement, or healthful enjoyment. These Springs are reached in a day's ride from Balti-

more or Washington, by the Railroad to Charlestown, from which place comfortable Coaches with safe drivers and horses, belonging to the Company, will convey travel-lers to the Springs, a distance of 5 miles, over an easy road and through a most beautiful and fertile country, arriving there before sunset.

Dennisville, Amelia co., Va., May 15th, 1839.

POLITICS.

TUESDAY, JUNE 4, 1839.

VIRGINIA ELECTION The National Intelligencer deals in generals this morning, as it always does when it cannot give any thing particularly favorable to the coalition. It tells its friends

"So far as we have heard, the Whigs have gained in the State Senate, and fallen off in the House of Delegates. Our present impression is, however, that the complexion of the next Legislature of the State will vary ery little from that of the last."

The information we present below, comprising about half the State, was received before the Intelligences, went to press. Most of it had been published in Satur day's Globe; and yet the editor could draw no inference com it but that "the next Legislature of the State will vary very little from the last!"

Our readers will perceive, that results, so far as ascertained, indicate an entire reversal of the power of par-ties in the next General Assembly. This body, at the last session, contained a majority of 26 against the Ad ministration on joint ballot. A clear gain of 13 taken from the ranks of Federalism, and added to that of the Democracy, annihilates the Federal majority. Already. in about half the State, the Republican clear gain is 9 making a change in "the complexion" of the next Le gislature of 18 votes We consider the undoubted De mecratic character of the portion of Virginia to be heard from, a perfect guaranty that the change of votes neces-sory to secure the ascendancy of the Democratic party will be obtained. The sections of the State from which eturns have been received, are the only points where Conservatism and Federalism could bring their factics to ear successfully, viz: the Richmond neighborhood and Albemarle district. There, and there only, have the Opposition advanced, and by the most extraordinary neans and fortunate circumstances made a little head

way. There has been a general collapse of their strength

with the people in every other section from which we

have had news. The results near Richmond and in the Albemarle district, when scanned, show that even the success at these points was not achieved by the majority of the people.— The counties around Richmond were carried by Richnond votes, in virtue of multiplied and in many cases nanulactured freeholds-giving to one individual a sort of ubiquity as a voter, and enabling him to vote in many counties during the three days' polling. Mr. Ritchie, cited an instance of one small tract of land in Henrico being split up into twenty five freeholds, and every splinter conferring a new right of suffrage for the coun on some Whig, who had before voted in the city -The neighboring town of Petersburg united with Rich mond in this manufacture of suffrages for adjoining ounties; and a young cavalier just from the field of ac tion, boasted, in this city, of his exploits in this new mode of riding roughshod over the rights of the people. The following note, received from a gentleman of high respectability and responsibility, will show how the

paign around Richmond and Petersburg:
"A young man by the name of Davis, from Petersburg, or the neighborhood, who was here today, houstingly stated that he had voted the Whig treket at seven different places. He stated, also, that two carriages were kept running filled with the same kind of voters. Two horses were killed in the exertions of the Whigs to multiply their times of voting." multiply their times of voting."

In Albemarle (Mr. Rives's county) the Federal tactics were reversed. Mr. Gordon, the Democratic can-didate, having once opposed the Administration, and Mr Garland taking the ground of absolute non-com-mitalism as to the President, the great mass of the Republicans were easily induced (because they had not made up their minds how to choose.) to stay from the poils. A new of the more ardent came forward and voted or Mr. Gordon, who had frankly avowed himself for Mr. Van Buren; but the great mass of the Republicans revolt at any thing that looks like a bartering transfer of their suffrages upon mere political calculations, without regard to persons or principles. They had once declared against Mr Gordon, with great unanimity; and altho' they no doubt considered that he had erred from an excessive zeal in a career which had much in it to re concile them to him on his return, yet, with the staid and inflexible men, who take a pride in their consist ency, it required some probation to make their support

derations kept them from the polls. The Federalists, on the contrary, as Mr. JEFFERS says, moved "in phalanx, and at the word of cammand They went over in a body to Mr. GARLASD. not make this statement on speculation. It is clear from the polls that not one half the voters of Albemarle gave in their suffrages. The county gives between thirteen and fourteen hundred votes. The whole vote, (except two precincts not heard from, which will not add probably one hundred and fifty to the pull,) as given in the Charlottesville paper, is 454.

of Mr. Gordon proper in their own eyes. These consi-

On this state of the case, the Charlottesville Advocate a thorough going Whig, says: The vote is provably the smallest that has been taken in the county for many years, and we believe affords no ground to estimate the strength of parties."

This it thus explains: The principal cause of the spathy in this county, was the want of county opposition, and the circumstance of General Gordon and Major Garland having changed

aspects."
The Whig Advocate, speaking of the friends of the course of Administration, says "The leaders preferred Gen Gordon's election, and generally voted for him-but they could not induce the rank and file to come to the polls to sustain them."

Then speaking of the course of the Whigs in regard to the two candidates, the Advecate says : "But no sooner did he (Gen. Gordon) unwhig himself, and declare his preference for Mr. Van Buren, than his long-tried and steadfast friends set their faces against him, and however nauseous the dose might be, many even voted for his opponent with all his former trans gressions unconfessed and unatoned-for; disregarding personal preference, and choosing rather the candidate who was coming, to the one they considered as going There are scores of men in the district that the Whigs of Albemarle would have preferred to Major Garland, but they wanted one essential qualificaon, an ability to obtain a majority of electoral votes -Mr. G. has done pretty well lately and if he continues

ropposition to Executive corruption, and misrale, the

Whigs will have no cause to regret his election-espe-

cially as it was effected in defiance of official dictation

and Executive influence." - Glube. FEDERAL FRAUDS IN ELECTIONS .- It is remarkable that not one State, in the late hard struggles of Federalism to keep from drowning, has escaped its fraudulent conspiracies against the right of suffrage. It is no won-der. Fair and equal suffrage is the baneful power which subjects the tribe of drones, who would be privileged Government to live off the earnings of others, live in the sweat of their own face." That in Virginia, as in New York, New Jersey, Pennsylvania, Illinois every where, more or less, they should attempt to circumvent the fair result of the polls, ought to have been expected.

The editor of the Richmond Enquirer showed how a piece of steribity in Henrico was cut up into suffrages. give that Democratic county to Federalism. The editor of the Constellation gives us another example of this dexterous mode of making over a county to itsenemies, in despite of the majority within its borders. This is an improvement upon the Thaddeus Stevens system. The latter, in importing votes from Maryland to the election in l'ennsylvania, relieved the Democracy in one State of the Swiss employed to crush us rights in the other. But it will be seen that the same votes that gave success to Federalism in Petersburg, were enabled to make scraps of nominal thirty dollar freeholds perform the same leat in Dinwiddie. This is worse than England's rotten borough system. There, the voters who made the election for the borough, however few, resid ed in the borough, and the member chosen by it might look to the place he represented, for the constituents by whom he was elected. But in the case of the county of Dinwiddle it is otherwise. The citizens of Petersburg have returned the delegate for Dinwiddle, and the rights of the Democratic majority of that county are in trans ferred by the fifty seven Petersburgians, who purchased the power by a subscription of thirty dollars opiece

(From the Petersburg Constellation) The Federalists of Petersburg, imitating the worthy example set them by their Richmond brethren, des patched a small army of 57 voters to the aid of their Diawiddie champion! The consequence is already stated. ed. The people of Dinwiddie, we understand, are indignant at this interference on the part of Petersburg; and justly so, as the fact is well known that about THIRTY of the Federal votes which went from Petersburg to Dinwiddie on Thursday last, were manufactured within the last twelve months, out of a lot of poor land in the county, bought up and partitioned out into thirty dollar freeholds, for the express purpose of controlling the Dinwiddie elections The manly and independent ne Dinwiggie elections The library and independent Republican course of Mr. Vaughan in the Legislature, had drawn upon his head the burning wrath of Federalism; and, notwithstanding that he had faithfully and zealously advocated the interests of l'etersburg in the Legislature upon all occasions, the Federalists here de-

VOLUME XXXVI .-- No. 8.

termined upon sacrificing him on the altar of party. Yes, upon that altar for which they affect so much horror, and for whose victims, when Federalists, they express so much real sympathy. In effecting that object they materially aided; and their active exertions against him will, we hope, impress lorever on the mind of our valued friend, how little reliance is to be placed on Federal grastude, and how little he has to hope for hereafter from

Money used to l'ROPAGATE ABOLITIONISM .- All the obtical schemes of Federalism are propagated by money. Politics, with this per cent. party, is simply a system of traffic. Federalism is, indeed, a great joint stock company, which converts Government into a machinery to turn the capital contributed by the different asses that make up the concern, to yield immense prohis by legislative legerdemain. Hence the tariff party throughout the North were found lavish of money to cary elections, because the candidates supported by them or public stations were all pledged to levy heavy taxes upon the industrious, to make heavy profits not only on the capital invested in joint stock manufactories, but in patronage from joint stock politics. So with the Pank stock jobbing and speculating interest. They invested large sums in the elections, to support candidates who would surrender the revenue and credit of the nation o these classes to tax the people over again in the shape of Bank usury—exactions through the monopolies of speculators and the tricks of stock jobbers. Traders in politics, associated with Federalism, have found that they cannot carry their plans without an alliance with very species of faction; and they, therefore, as readily invest money to propagate the Abolition sgitation in the North, as they did to excite that of anti Masonry. It was considered as so much capital invested in gaining political strength, to turn to profit when the power was brought to bear on legislation. The following, which we take from the Louisville Advertiser, shows the annual increase of the Abolition fund since the identification of the fanatics with politics .- Globe.

(From the Louisville Advertiser) We copy the following account of the late anniver-sary of the Abolition Society of N. York from the Express. It shows that the fanatics are active and energetic and that their movements cannot safely be disregarded by the people of the slavcholding States:

"The sixth anniversary of this society was held yes-terday at the Broadway Tabernacle. The large building was well filled with a highly respectable audience of both sexes, a large portion of whom were from out of the city. A small number of colored persons was present, scattered here and there about the house.

"Arthur Tappan, President of the society, took the hair. The meeting was opened by the Rev. Mr. Allen, of Massachusetts, by reading the scripture and by prayer. "An abstract of the annual report was read, from which we gather the following facts: the number of Abolition societies in the U. States is 1,550-304 of which have been formed the last year; the number of news-papers devoted to the cause is 12, viz: 9 weekly, I semionthly, and 2 monthly, which together issue 25,000 sheets every week. The amount of subscription to these papers is \$40,000 annually. "The total of the publications of the society, for the

ear, is 924 360, of which 213,000 were copies of the Emancipator, 148,000 of Human Rights, 20,000 bound volumes, and the remainder tracts The subject of political Abolition was treated of in the report, which re-commends a distinct organization of the Abolitionists as s political party, and withholding their votes from those who differ from them "A larger sum has been contributed towards the object of

the society this year than any preceding one."

BOMESTIC.

(From the N. Y. Commercial Advertiser) WHAT CAN THE MATTER BE?-Applications for diorce thicken upon the Legislature of Connecticut, and what seems passing strange, the Representatives of the people are becoming quite willing to grant them. On Monday, Elizabeth S Bradly was divorced, on her own petition, from her husband, Charles Bradly, and on Tuesday three more were granted, viz: Eather D. Murray was divorced from her husband; Hannah Canfield from hers; Mary Woodworth from hers. Pray what can be the matter in the good old State of steady habits, that the people are unmarrying each other at such a rate?-Are provisions scarce? Or have the women joined the Anti-slavery Societies, and commenced by freeing themelves from their own bonds first?

P. S -The foregoing article was written vesterday .-By the Hartford papers received this morning we perceive that the lower House of the Legislature has granted two more divorces. A "refractory Senate," however, have negatived two of the only, have negatived two of the only, terence have been appointed,
"Hail wedded love!"
"And all that sort of thing."
[Milton and Matheus.

More yet!-The House of Representatives of Conecticut granted two more divorces on Wednesday, and took favorable action on a third. Another was granted on Thursday. Again we ask, what can the matter be-

[This comes of meeting at " the half-way house." It

invariably dissolves old ties, and begets a roving propen-eity. It is a sad sight to see Federalism and Conservatism divorcing the family affections. It is worse than Fanny-Wrightism. It invariably happens, however, when parties quit their homes and resort to half way houses, that it produces dissolute habits. Old rakes, ccustomed to this sort of entertainment, and who have, from early life, learned to accommodate it to conjugal relations observed merely in formalities, may maintain appearances to the end, but their lately corrupted converts end their career in the melancholy way of which the Federal Conservative Legislature of Connecticut give the example — Globe]

FROM FLORIDA. It gives us great pleasure to announce the arrival at the seat of Government of Major General Macomb, who has succeeded in pacifying the Indians of Florida, and has made such an arrangement with them as will effectually put a stop to the further effusion of blood in that Ferritory. The country to be occupied provisionally by the Indians is situated beyond all former settlements and the cordon of posts established across the peninsula from New Smyrna to Tampa Bay will be furnished with a sufficient number of troops to ensure the faithful observance of the terms dictated by Gen. Macomb, both by the whites and the red men.

Late despatches received from Fort Gibson announce

that Gen. Arbuckle and the Superintendant of Indian Affairs, and Gen. Armstrong, had, in pursuance of in-structions from the Secretary of War, made an arrangement for the future permanent establishment of the Seminoles, perfectly satisfactory to Micanopy and other chiefs, and that the Seminoles now in the West were bout to remove there. HEAD-QUARTERS OF THE ARMY OF THE U. S., ? Fort King, Florida, May 22, 1839. Sir: Agreeably to the instructions I had the honor to

receive from your hands at Washington on the 20th of March last, I lost no time in repairing to Florida, and arrived at Black Creek, the general depot of the army, on the 5th of April. There I had the good fortune to meet with Brigadier Gen. Taylor, the commander of the forces in this Territory, then on a tour of inspection and review of the troops, and at the same time engaged in his plan of dividing the country, nearest to the settle-ments, into squares of 20 miles, and establishing posts therein. This fortunate meeting enabled me to place in the hands of Gen. Taylor a copy of your instructions, and to give him orders to co operate with me in carrying those instructions into effect, directing his attention particularly to the protection of the settlements along the line from Garey's Ferry to Tallahassee, and west of the latter place, authorizing him, at the same time, to call into service such a force of militia as mentioned in your instructions. General Taylor, having with him interpreters, and Indians connected with the hostile parties by ties of consanguinity and intermatriage, was desired to open, if possible, a communication with them, and thereby make them acquainted with the fact of my arrival in the country, and my wish to see the chiefs and warriors at this post by the 1st of May instant, to hold a conference with them. Col. Twiggs, who was then commanding at Garey's Ferry, having military authoricommanding at Gatey's rerry, naving military authority over a considerable extent of country, was also made acquainted with my instructions, and he rendered a ready and efficient aid in furthering my views. Colonel Warren of Jacksonville, who heretofore had command of the militia serving in Florida, was highly ecommended to me on account of his efficiency and activity as an officer, was invited to raise and take command as Lieutenant-Colonel of a battalion of mounted militia, to assist in the defence of the settlements East of the Suwannee, and expel the Indians. Altough quite inconvenient to him, at the time, on account of his private affairs, the Colonel very promptly complied with my wishes. In the meanwhile, Gen. Taylor was making arrangements with the Governor of Florida, in raising, for the defence of the settlements on the West of the Suwannee, a military force. Notwithstanding all these measures, the Indians, dividing themselves into small parties, penetrated the settlements, committed some ourders, and fired from their coverts on the expresses
